INDEX

PLOW MOUNTING HARDWARE FOR UTILITY VEHICLES

- Quick-connect mounting hardware allows easy hook-up and fast removal
- Rear attachment point features heavy-duty 1 1/4" steel pivot points
- Universal, heavy-duty push tube withstands the roughest use
- Blade swivel constructed of 3/8" steel with 20" blade attaching points for greater blade support and strength
- Open swivel eliminates dirt and snow build-up in the pivot point
- Three blade swivel positions and four-way blade pitch adjustment
- ATV plow bottom-mount kits include all necessary hardware to attach universal push tube and plow to your ATV
- Winch mount kits accept Moose, Warn and Superwinch winches; come complete with roller fairlead
- For other blade sizes, see Plows & Implements section

WHAT TO ORDER

1. Any Moose plow blade (regular or County)
2. A UTV push tube (PART #M91-91001)
3. A bottom mount specific to your UTV
4. A blade lift system: winch and winch mount or an electric lift

RAPID MOUNT PLOW SYSTEM

- The third generation of Moose plow systems
- Compact front-mount design with an original install time of 30 minutes
- Mount or unmount within seconds after the original installation
- Provides over 20" of lift height
- Will only work with a winch lift and will fit all Moose plow blade sizes
- Available in black powder-coated finish
- For other blade sizes, see Plows & Implements section

NOTE: See Plows & Implements section for more blade information and photos.

WHAT TO ORDER

1. Plow frame PART #4501-0147
2. Mount plate specific to your UTV
3. Winch mount if UTV does not already have a winch mounted
4. Plow blade of your choice
